CAR PROTECTION

No
monthly fee

FLEXIBLE
CUSTOMIZATION
TO YOUR NEEDS

POSSIBILITIES

Remote immobilizing

and small dimensions

Didn't get rental payment?

Just block the vehicle from driving.

The problem has been solved? Disable the lock.

Quickly and remotely

Quality driving monitoring

Not sure about customer driving skills?

The system shows the driver's rating: over speeding, sharp braking, turning/accelerating.

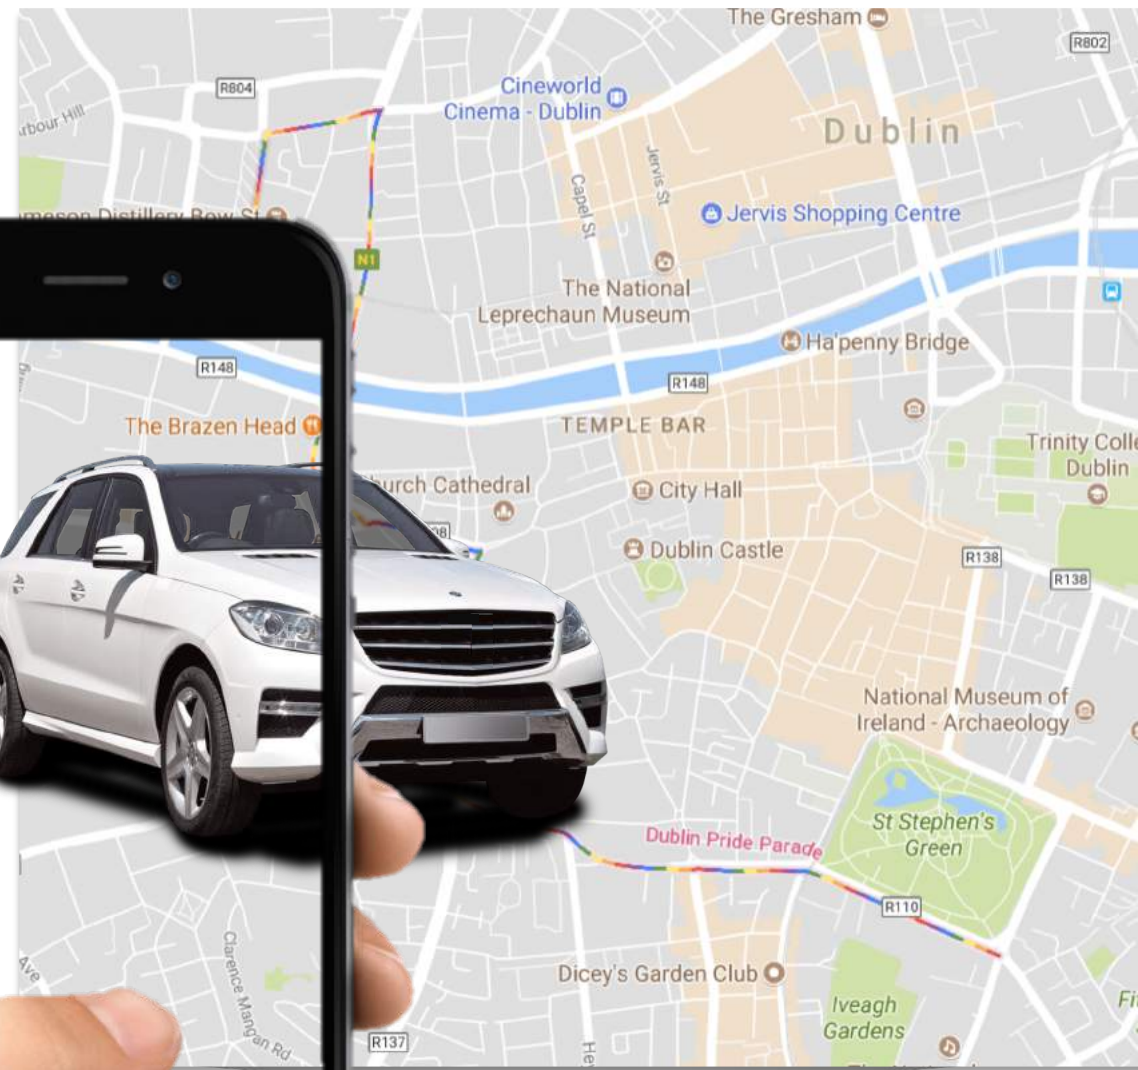

Be confident in the people you trust the vehicle.

The system will keep statistics for you.

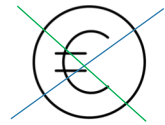

Additional security

You always want to protect the vehicle from theft.

Without a special tag vehicle doesn't start.

ADVANTAGES

No monthly fee

Only sim card and minimum package for internet access - total about € 3 per month

Service

When buying a product, you immediately get installed on your vehicle and setting all the parameters you need

Additional security to your vehicle

Sensors respond to: tilt, movement and hit.
Any attempt to change position vehicle will be noticed

Small size

The size of the tracker allows you to hide it in almost any place to exclude it from being located by the customer and using in their own interests

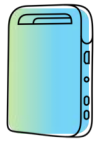

Driver Rating Reports

The function of obtaining a detailed report in pdf format with data for each vehicle (date, time, place of excess speed)

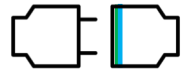

You pay just once

And get:

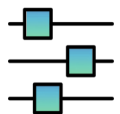

Device

Connection

Technical support

**Adaptation of the system
